

## D7653C2T

### Dual-Sided Six-Color E-Ink Screen Meeting Nameplate

#### Description

The D7653C2T Dual-Sided Six-Color E-Ink Screen Meeting Nameplate features low power consumption, allowing several months of use on a single charge under regular use. It supports air wake-up and refreshes quickly, with results visible in seconds. The dot matrix electronic paper screen offers a nearly 180° viewing angle and a natural display, resembling real paper. Installation is simple with quick setup and no wiring required, as it is powered by a battery. The dual-sided display is elegant, minimalist, and easy to read. It supports global deployment and is ready to use without installation. The user-friendly interface allows for easy operation, with no learning curve.

#### Features

- 7.5" Six-color E-ink screen with nearly 180° viewing angle, mimicking real paper.
- Up to 6 months of use on a single charge, with air wake-up and fast refresh for quick results.
- No wiring required, quick plug-and-play installation powered by a battery.
- Dual-Sided Display: Clear and minimalist design, easy to read from both sides.
- Global Deployment Ready: Ready for immediate use anywhere without installation.
- User-Friendly Interface: Simple, intuitive operation with no learning curve required.

#### Specifications
